Declaration of RoHS Compliance

This document shall serve as formal declaration that the transformers and/or other magnetic components manufactured by Mercury Magnetics are in compliance with the European Union RoHS Directive 2002/95/EC with respect to the following substances:

- Lead (Pb)
- Mercury (Hg)
- Cadmium (Cd)
- Hexavalent Chromium (Cr (VI))
- Polybrominated biphenyls (PBB's)
- Polybrominated diphenyl ethers (PBDE's)

The transformers/magnetic components manufactured by Mercury Magnetics, as well as standard lead wires, insulation systems, and sealants meet the requirements of EU 2002/95/EC; however, some assemblies are customized to client specifications. Addition of specialized, customer-specified materials or processes which do not meet the requirements of EU 2002/95/EC may negate RoHS compliance of the assembly. To guarantee compliance of the assembly, the need for compliant product must be communicated to Mercury Magnetics in written form.

This declaration is issued based on our current level of knowledge, and covers products after January 1, 2006. Since conditions of use are outside our control, Mercury Magnetics makes no warranties, express or implied, and assumes no liability in connection with the use of this information.
