

**IMPORTANT NOTE:** WE DO NOT SUPPLY VINTAGE TRANSFORMER CANS!! You must supply us with your original.

An example of a rebuilt (rewound and restored) transformer from an **Ampeg B15** amp. For amps like this, with potted and “canned” transformers, we require your original transformer’s “can.” Our restorations look exactly like the originals.

Example of a burned-out potted core from an **Ampeg B15**. That’s what’s buried inside of the can!

**Ampeg B15 Bass Amp**  
 Mercury part #: AB15-O (output transformer)
