

What's under your hood?

Imagine how your **Marshall**® would sound if you loaded it with substantially more **IRON**

We're building them even *better* now than they did in the '50s and '60s. The **FatStack**™ and **SuperStack**™ are **Mercury's** proprietary designs capable of delivering powerful and important improvements to your amp's **tone** (and reliability). **You get:** Extended bass frequency response, richer **tonal** dynamics, better punch-through and touch-sensitivity. **You get:** A cooler-running amp with superior power-regulation that'll deliver bigger, more open and consistent **tone**. **You lose:** **Tone**-drift while gaining **tone** stability and headroom. Did you know that your modern **Marshall** is missing the **HUGE tonal**

benefits of a **choke**? A **choke** was part of the original **Marshall** magic! Yet most modern **Marshall**s don't have them. We have the remedy—our most popular **Marshall Upgrades** include either **FatStack** or **SuperStack** transformer sets along with a **choke**—an easy installation for any amp tech. It all adds up... no modern **Marshall** should be without **Mercury Upgrades!** For more information call your

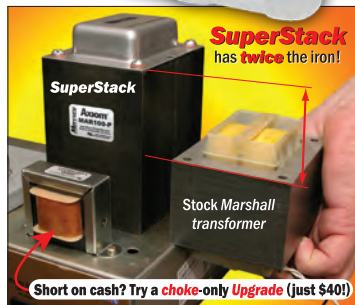

friends at **Mercury** today, or visit our website. Remember—where you get your **transformers** is where you get your **tone!**

www.MercuryMagnetics.com ⚡ (818) 998-7791

The most significant **Tone Upgrade for a modern Marshall you can make!**

Mercury's sky-high stack literally towers over the stock **transformers**.

Short on cash? Try a **choke-only Upgrade** (just \$40!)
