TRANSFORM YOUR

ORANGE "Tiny Terror" INTO A

# "HOLY TERROR"

WITH THE *Mercury Upgrade Kit*

Turn your "Tiny Terror" into the tricked-out "HOLY TERROR" with the help of **Mercury** iron and a few cool *Alan Cyr* circuit tweaks!

Cancel those accordion lessons! (Sorry grandma!) You're not going to have time because you won't be able to let go of your guitar when you hear the *pro level tone* and *added features* of the amazing NEW and easy-to-do **Mercury Upgrade Kit**.

The "HOLY TERROR" Upgrade Kit comes complete with everything you need to **UPGRADE** your amp!

- ▶ Full-custom **Axiom** power & output transformers.
- ▶ Easy-to-follow color-illustrated manual on CD-ROM.
- ▶ All additional components—nothing else to buy!

It's our simplest **upgrade kit** yet. All you (or your amp tech) do is swap the **transformers** and make a few minor circuit mods. The **kit** also includes an optional **Pentode/Triode** mode selector switch that *doubles* the tonal possibilities!

What do you get for your pain and suffering? Oh man, is it H-U-G-E!!!! *Orange* attitude 'till it's busting at the seams. Throw away the straw because this is *true big gulp overdrive* with your *Orange* drink!

More than any other component, your amp's **transformers** determine its tone. To make the point **Mercury**

Inside the greatest-sounding guitar amps of all time is buried treasure. The source of this coveted amp tone? It's the **TRANSFORMERS!** (Because tubes can't do it alone.)

intentionally chose the *Orange* "Tiny Terror"—then designed this killer **transformer upgrade kit** for it.

Our "HOLY TERROR" Upgrade Kit features custom-tuned performance **transformers**. The same or higher quality as those used in boutique amps costing substantially more. After you hear it you'll never settle for stock **transformers** again. Never. The improvement in tone is *beyond dramatic*.

PLEASE NOTE: This is a specially developed and priced kit. At this time we are not selling the components individually. **Mercury's** "Holy Terror" Upgrade Kit does not include the amplifier—only the components necessary for the upgrade of an existing amp. This project and its documentation is the result of technical investigations made by the engineering staff of **Mercury Magnetics**. Warning: Amplifiers using **Mercury** iron exceed the recommended daily allowance of amplified guitar tone. Please consult with your physician if you experience an erection lasting more than 8 hours after playing your guitar. Remedies for this condition include putting the stock trans back in the amp or singing hymns while icing the affected area.

We make 'em for you here in California!
