

Take your stock amp's tone and tear it a new one!

MEAN 13™

Mercury High-Power Upgrade

It's mean... it's nasty... and now it's 13 watts. **Mercury's Mean 13 High-Power Upgrade** takes the "Little" out of your "Little Giant." A total balls-out **upgrade** for your *Blackheart*!

The **Mean 13 High-Power Upgrade** delivers a whole new spectrum of **T-O-N-E**—from classic American to classic British distortion! Awesome tone with stone-quiet performance at a fraction of the cost of anything in its price range!

More than any other component, your amp's *transformers* determine its tone. Our **Mean 13 High-Power Upgrade** features custom-designed, handmade and tuned,

performance *transformers*. The same or higher quality as those used in boutique amps costing substantially more. And, like all of our **upgrades**, after you hear this you'll never settle for stock *transformers* again. Never.

The improvement in tone is *beyond dramatic*.

The **Mean 13 High-Power Upgrade** requires a radical modification of the "Little Giant's" circuit board and chassis—including the addition of twin-6V6 sockets, full-custom *transformers* and *choke*. That's why it's only available from authorized **Mercury** amp techs. To find out more about this specially-priced **upgrade**, and for the authorized amp tech nearest you, give us a call or email (info@MercuryMagnetics.com).

A MERCURY Exclusive
TONE Guarantee!
If you don't hear the difference or don't love how your **UPGRADED** amp sounds... **MERCURY** will **REFUND** the purchase price.*

THE ABSOLUTE ULTIMATE UPGRADE!

Only available from **Mercury** authorized amp techs.

Hey you **Mean 13** guys!
No shirt, no shoes, no service!!

Amp techs call **Mercury** for information the **Mean 13 High-Power Upgrade** and our service support network. The **Mercury Tonal Satisfaction Guarantee** and **10-Year Warranty** is extended only to transformers and chokes of our upgrade kits. **Mercury** assumes no responsibility or liability for the stock amp or the work done to the stock amplifier. See our website for details. Copyright © 2008 by **Mercury Magnetics**. All Rights Reserved. **Mercury Magnetics** and **Mean 13** are trademarks of **Mercury Magnetics**. **Axiom**, **ToneClone**, **Radiospares** and "The Heart & Soul of your Amp" slogan are registered trademarks of **Mercury Magnetics**. **Blackheart Engineering** and "Little Giant" are trademarks of Loud Technologies Inc. **Mercury Magnetics** is not affiliated with **Blackheart Engineering**. PLEASE NOTE: This is a specially developed and priced kit. At this time we are not selling the components individually. **Mercury's "Mean 13" High-Power Upgrade Kit** does not include the amplifier—only the components necessary for the upgrade of an existing amp. This project and its documentation is the result of technical investigations made by the engineering staff of **Mercury Magnetics**. Warning: Amplifiers using **Mercury** iron exceed the recommended daily allowance of amplified guitar tone. Please consult with your physician if you experience an erection lasting more than 8 hours after playing your guitar. Remedies for this condition include putting the stock *trannies* back in the amp or singing hymns while icing the affected area.

We make 'em for you here in California!
