APS CRV-V16-P POWER TRANSFORMER

DUAL PRIMARY

On a dual primary PT, BOTH primary windings MUST be used!

For 120V usage : Tie the Black and Orange wires together and then tie the Blk/Wht wire and the Orng/Wht wires together. These are your two leads.

For 230V/240V usage: Tie the Blk/Wht and Orange wires together and float them. The Black wire and the Orng/Wht wires are your two leads.
